

HOPPER BARGE

Bjarke R

Bjarke R is a non-propelled split hopper barge, **classified for working offshore.**

Good solutions are always provided to suit the customers' requirements with special emphasis on environmental challenges. If the material is polluted the barge **can be sealed.**

The barge can also be attached to our grab dredgers, and serve as additional hopper capacity.

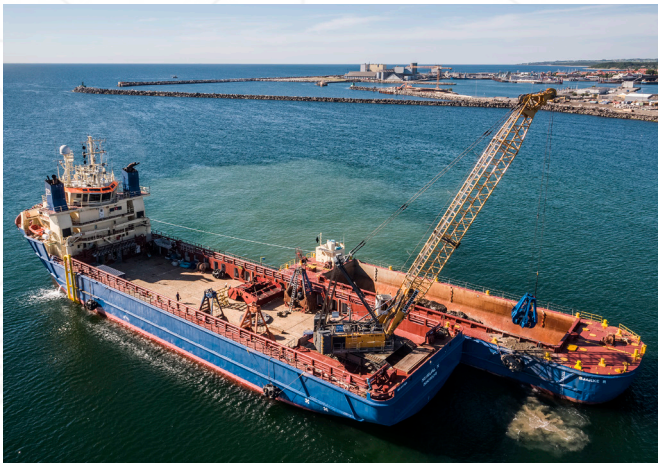

With very **shallow draft**, the barge can be employed on **all types of projects.**

The split function on Bjarke R can be **remotely controlled** from assisting tug boats.

Nordic mythology

Bjarke has an immense strength and an ability to reshape. He was king of the Norwegian dynasty. Stories tell that his stepmother transformed him into a bear.
