

BARGE UNLOADER

## Tyr R

Tyr R accommodates several **shore and offshore possibilities for pumping** materials ashore.

The pumping distance depends on the material and the chosen configuration of the pumps. When working as barge unloader, a distance of 2300 m is possible. Tyr R can also function as booster station, to increase the pumping distances of our dredgers.

### Nordic mythology

**Tyr** is the god of war and justice. He is the boldest of the gods, who inspires courage and heroism in battle. Tyr is represented as a man with one hand, because his right hand was bitten off by the wolf Fenrir.
